

The Clube Surf Faro is the central place for practicing surfing. The association was formed in January 1996 by several locals who felt the need to organise the surf environment at Praia de Faro in the Algarve and to take part in national and international competitions. Since then, the Clube Surf Faro has formed many surf generations along the Algarve. Training and competition of younger students is one of the main aspects of the Clube Surf Faro. As a water sports institution, the Clube strongly believes in professional training and practicing of surfing at an excellent surf spot here at Praia de Faro.

Every year several national and international contests such as FOUR OCEANS, Surf & Wheels and Sliding Society at Praia de Faro are organized by the Clube Surf Faro to bring different surf associations and their athletes together and to ensure a fair and high level of competition in surfing.
